

# K-CCS International Conference 2025

June 12, 2025

Seoul, Republic of Korea

*"Expanding CCS Horizons : From Korea to APAC"*

Korea has adopted CCS as a main solution for achieving its 2030 NDC goal and 2050 net zero. Domestic CCUS initiatives are actively being developed, and the need for transboundary CCS is also being highlighted. The **K-CCS International Conference 2025** will bring together stakeholders of CCS value chain to discuss Korea-global CCS cooperation. Through sessions participated by experts in various fields and in-depth discussions, you will explore opportunities in developing a robust CCS value chain that extends beyond borders. We hope valuable insights you gain from this conference help you explore new opportunities and strengthen your portfolio.
